

AS 9100

A three-day course for auditors and other professionals providing a full understanding of the global aerospace standard AS 9100

What you will learn

A practical and interactive series of modules provides:

- Detailed information on the Aerospace Industry's own quality standard
- A full understanding of AS 9100, its implementation and audit requirements

The course

- An aerospace industry overview
- Key aerospace industry topics
- Requirements for registration
- Aerospace regulations
- AS EN SJAC 9100
- Industry specific case studies

"A very interesting course, bursting with useful information."

*Lindsay Dewar, CQS Improvement Auditor,
Promethean Technologies Group*

Who should attend?

- Auditors, quality managers and quality professionals will all benefit from this course
- By covering recent revisions to fundamental aerospace specifications and specific industry issues before moving on to the AS 9100 standard, the course is uniquely structured to meet the needs of both experienced and less experienced aerospace auditors

Next steps...

- Six Sigma
- Integrated Management Systems
