

Environmental Legislation

A one-day course on how to comply with the requirements of UK and EU legislation

What you will learn

The course provides:

- A review of UK and EU environmental legislation applicable to most industrial and commercial businesses
- A general strategy for ensuring full legal compliance through awareness training, site audits and risk assessments
- A description of how to compile and maintain a register of environmental regulations

The course

- Introduction
- Principles of UK environmental legislation
- Review of current UK environmental legislation
- Demonstrating legal compliance
- Compiling a register of environmental regulations

"All the information given in the course was very valuable to our company and will benefit us greatly."

*Phil Auger, Senior Environmental Engineer,
Epson Telford*

Who should attend?

- Senior managers who need an appreciation of environmental legislation in order to reduce their exposure of risk of prosecution
- Environmental and safety managers responsible for dealing with regulators
- Quality managers moving into the environmental field
- Anyone who needs a general understanding of the legislation and relevant operational controls

Next steps...

- Environmental Management
- Producer Responsibility Legislation
