

# Business Continuity Planning

## Two Day Business Continuity Workshop

This two day Business Continuity Foundation Course will provide all attendees with a practical understanding of Business Continuity Management (BCM).

The course provides a solid understanding of the overall Business Continuity process enabling Management to embark upon the entire Business Continuity Process.

Risk Identification and Assessment, Business Impact Analysis, Business Continuity Implementation, Strategy Identification and the Business Plan structure are fully explained giving an understanding of the BC process through to exercise, audit and maturity.

### Course Duration

Two days.

### Who will the course benefit?

The course will benefit all levels of management and team leaders required to connect with Business Continuity Planning.

### What skills will delegates gain?

Attendance on the course enables students to become affiliate members of the Business Continuity Institute with the prospect of continuing their professional development through to full membership with MBCI status.
